

Fazzoletto Glass Pendant Lamp

AESTHOME

SPECIFICATION SHEET

DESCRIPTION

The Fazzoletto Glass Pendant Lamp translates the artistry of traditional glassmaking into a fluid, contemporary form. Each shade is mouth-blown and shaped in the distinctive fazzoletto style, creating a graceful, undulating silhouette reminiscent of flowing fabric and gently unfurling petals. Light filters beautifully through the luminous colored glass, revealing its clarity, depth, and subtle variations in tone.

Warm metallic details and a sturdy iron canopy bring balance to the delicate form. Available in a wide range of colors, Fazzoletto can be selected with or without delicate hand-applied bead embellishments. Striking on its own and captivating when arranged in a cluster, it brings an effortless sense of artistry to dining spaces, kitchen islands, bedrooms, and intimate corners.
