

Stone & Jade Twin Wall Lamp

AESTHOME

SPECIFICATION SHEET

Distance from wall: 5.3" / 13.5 cm

DESCRIPTION

Carved from natural stone, the Stone & Jade Twin Wall Lamp brings organic texture to a balanced, sculptural form. Two softly glowing globes frame its elongated silhouette, while the gently flared stone sections create a graceful sense of symmetry around the central metal backplate.

Each stone finish lends the lamp a distinct character: the luminous depth of Green Onyx, the softly porous texture of Travertine, or the expressive veining of Calacatta Vein. As light falls across the surface, these natural details become more pronounced, ensuring that no two pieces are exactly alike.

Quiet yet visually striking, the lamp works beautifully as a single accent or arranged in pairs beside a bed, along a hallway, or within a thoughtfully composed living space. Part lighting and part sculpture, it brings warmth, material richness, and a timeless sense of balance to the interior.

SPECIFICATION DETAILS
