

Earthen Rhythm Linear Wall Light

AESTHOME

SPECIFICATION SHEET

DESCRIPTION

The Earthen Rhythm Linear Wall Light arranges natural stone beads in a single vertical sequence, creating a quiet sense of rhythm and balance. Suspended from a circular metal backplate, the elongated strand leads the eye naturally towards the softly glowing globe below. The contrast between rounded stone forms and slender metal details gives the design a calm, sculptural clarity, while subtle variations in colour, texture, and translucency reveal the unique character of each stone. Elegant on its own or arranged in a series, it brings a refined architectural presence to the wall.
