

Fazzoletto Glass Chandelier

AESTHOME

SPECIFICATION SHEET

DESCRIPTION

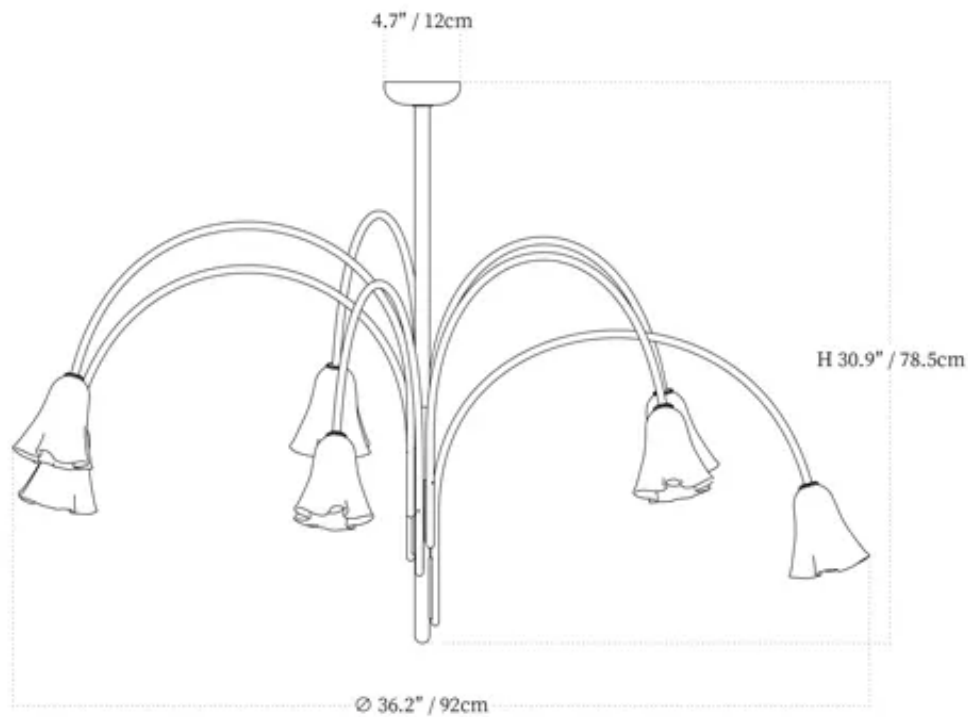

The Fazzoletto Glass Chandelier balances botanical delicacy with sculptural drama. Slender, arching arms extend gracefully from its central stem, each ending in a glass shade shaped like a flower in bloom. Crafted using the centuries-old fazzoletto technique, the molten glass is carefully formed into soft, flowing ruffles, giving every shade its own subtle character. Made to order by skilled artisans and accented with hand-finished brass details, the chandelier comes alive when illuminated, casting a warm, atmospheric glow through its coloured glass blossoms and creating a captivating focal point within the room.
