DESCRIPTION

The Murano Glass Flower Pendant Lamp transforms Murano-inspired handcrafted glass into a graceful, sculptural bloom. Flowing ripples and subtle variations across its petal-like shade lend the surface depth, movement, and a distinctly artisanal character. The color appears richest around the flower’s center before gradually softening into clear, translucent edges, giving the design a delicate sense of lightness.

Available in three glass color options, each finish reveals a different expression of its organic form. When illuminated, light travels through the layered tones and textured glass, creating a warm, shifting glow reminiscent of sunlight shimmering across water. Whether displayed alone or arranged in a cluster, it creates an artistic focal point above dining tables, beside beds, or within intimate living spaces.
