

Pop Glass Table Lamp

AESTHOME

SPECIFICATION SHEET

DESCRIPTION

Bright, cheerful, and effortlessly modern, the Pop Glass Table Lamp adds a playful splash of color to any interior. Its softly rounded glass shade diffuses the light into a warm, capsule-like glow, while the glossy domed base and petite spherical finial give the silhouette a balanced, graphic quality.

Crafted from glass and metal, the lamp combines visual lightness with a strong, sculptural presence. Its lively yet refined color pairings make it a charming addition to a bedside table, console, desk, or cozy reading corner.

Available in six color combinations, this USB-rechargeable lamp provides flexible, cordless illumination wherever it is needed. A discreet button on the base ensures simple operation, while its portable design allows it to move easily between the bedroom, living area, workspace, and dining table.
