DESCRIPTION

The Ribbon Veil Murano Glass Wall Sconce transforms layered glass into a softly sculptural display of light. Gently curved panels overlap like flowing ribbons, while their delicate texture and subtle variations in colour create depth and character. When illuminated, the glass diffuses a warm glow and casts beautiful, organic reflections across the wall.

Small brass accents provide a refined contrast, bringing definition and warmth to the airy composition. Available in three colourways, Ribbon Veil adds an artistic touch to bedrooms, hallways, dressing areas, living rooms, and other intimate interiors.

SPECIFICATION DETAILS
