

Veiled Isles Wall Lamp

AESTHOME

SPECIFICATION SHEET

SPECIFICATION SHEET

DESCRIPTION

Shaped by solid stone and softened by a misted glass shade, this wall lamp brings together natural weight and a quiet sense of movement.

The textured surface of the stone remains visible through the diffused glow, creating a subtle contrast between structure and light.

Its form feels grounded, yet gently veiled, like something emerging from a distant horizon.

A calm presence for interiors that value material, balance, and atmosphere.

SPECIFICATION DETAILS
